## Construction, Construction and More Construction

Dear Residents:

In addition to the Route 263 reconstruction project, several large development projects are currently underway along York Road. We expect that these projects will continue to exacerbate the traffic problems currently on York and Almshouse Roads. A summary of the projects currently under construction, approved, proposed or available for development are below:

1. A new Wawa is under construction at the intersection of York Road and Meyer Way. Other pad sites are available on this property but tenants are currently unknown. We anticipate a fall opening for Wawa.
2. The Bridges at Warwick assisted living facility is under construction at the intersection of York Road and Almshouse Road. We anticipate a winter partial opening.
3. The Route 263 Discount Storage facility located on Kendarbren Drive and York Road is undergoing an expansion to add more storage units behind the existing Dunkin Donuts.
4. The Jamison Carpet and Tapas restaurant have approved preliminary plans to construct an addition with a parking lot expansion. Final plans still require approval prior to the start of construction (as of 6/10/2015).
5. The "Fetzer" property (in between Wawa and Car Wash Express) has sketch plans submitted to the Township for review. The most recent proposal is a mix of different housing types.
6. The "Walker" property (corner of York Road and Meyer Road) is currently for sale and may be developed. No plans have been submitted to date.
7. The Lukoil property (corner of York Road and Almshouse Road) is closed and awaiting a new tenant or redevelopment. No plans have been submitted to date.

The good news is that new construction is a good indicator of a strong local economy. The bad news is that traffic and congestion will remain until the current development boom slows. Please be sure to make an effort to support your local businesses so they are still here after the construction.

## COMMENDATION FOR LIFESAVING

Officer Witman receives his award (his 2nd) and is congratulated by Chief Goldberg.

On February 6, 2015 at 11:23 PM, EMS and Warwick Police Officers Witman and Hueber were called to a home on Gabriel Lane for a reported patient with chest pains. When the officers arrived, they found the patient in severe distress and he subsequently experienced cardiac arrest. Officer Hueber immediately began CPR. Officer Witman, an EMT assigned to our QRS service applied a defibrillator, and administered a shock. Paramedics from Warminster and Warrington arrived, and took over patient care. As a result of this cooperative effort, the patient was able to survive and recover from this most serious medical condition.

Based on their outstanding action, which resulted in the saving of a life, Officers Witman and Hueber are hereby awarded the Warwick Township Commendation for Lifesaving.

Officer Witman meets the man whose life he saved- under better circumstances! Great work, Chuck!

## SOLICITING INFORMATION

In March of 2015, the Warwick Township Board of Supervisors made significant changes to the ordinance regulating commercial solicitation (door to door sales) within the Township. The full ordinance can be found at <http://ecode360.com/laws/WA1313>. The following is a summary of several important new requirements:

- All commercial entities must obtain a permit from the Police Department before conducting door to door sales in Warwick Township. Permit fees can be found in the Township fee schedule. Permits are not required for religious or charitable organizations.
- With their permit, solicitors will receive an identification badge from the Township, which includes their name and photograph. The badge shall be worn at all times while soliciting.
- Township residents and businesses may obtain a **"NO SOLICITATION"** sign from the Township to be conspicuously displayed in the front window of their property if they do not wish to receive door to door solicitations. Door to door solicitation is prohibited at properties displaying this sign.
- Any person violating this ordinance commits a summary offense. The fine upon conviction is a minimum of \$375.00 plus costs.

# FIRE MARSHAL REPORT

Ed Pfeiffer, Fire Marshal

## FIRE PLACE ASHES

Last winter there were several fires in the Township directly caused by improperly discarded fire place ashes. One fire caused significant damage to a home and another exterior fire spread through brush and threatened several homes before being extinguished. Residents involved were long time users of wood burning fire places and they were familiar with discarding the ashes. Even with this history, they were surprised at the amount of time that ashes retain enough energy to re-ignite when exposed to combustible materials. Days and in some cases a week, ashes retain that ability.

**Several rules must be strictly enforced.**

1. Never store ashes in a combustible container. A metal can with a tight fitting lid is required.
2. Never store ashes, even in a metal can, within 10 feet of a building, on a deck or under a deck.
3. Wet all ashes before finally disposing of them.

## EMERGENCY ELECTRICAL POWER

Power failures have increased the installation of back-up electrical generators. Although they can provide excellent service during a storm or other emergency, they come with some risks with regard to the handling of gasoline and the potential of Carbon Monoxide (CO). Here are a few safety tip if you have or are considering the purchase of a portable electrical generator.

1. Generators should be used in well ventilated locations outside away from all doors, windows and vent openings.
2. Never use a generator in an attached garage, even with the door open.
3. Place generators so that exhaust fumes can't enter the home through windows, doors or other openings in the building.
4. Make sure to install carbon monoxide (CO) alarms in your home. Follow manufacturer's instructions for correct placement and mounting height.
5. Turn off generators and let them cool down before refueling. Never refuel a generator while it is hot.
6. Store fuel for the generator in a container that is intended for the purpose and is correctly labeled as such. Store the containers outside of living areas.

**CO deaths associated with generators have spiked in recent years as generator sales have risen.**

## WARWICK TOWNSHIP BEGINS AMBULANCE SERVICE

At the May 18th Board of Supervisors meeting an agreement was signed with Warminster Ambulance to erect a temporary station at the Water and Sewer Authority property on Dark Hollow Road. Both the PennDot reconstruction of Route 263 and the increasing volume of calls and response times prompted the Board of Supervisors to look for a solution to the impediment in service that will result from the closing of Almshouse and York Road throughout the summer. With the coordination of many parties, the temporary station is up and running as of June 22nd.

This location will only be temporary (6 months + possible extension for 6 months) but will provide an additional ambulance and crew and bring it all closer to an area of the Township which will be challenging to reach in the case of an emergency.

Supervisor John Cox led the efforts and Supervisors Algeo and Thompson are both supportive of the project. The Board is now considering the possibility of building a permanent ambulance station in the next two years.

### REMINDER PHASE 1 ON-LOT SEWAGE VISUAL INSPECTION FORMS FOR 2015

By: Nancy Ehrmann-Cheatle, Code Enforcement Officer

In January 2015, the township sent letters to all households in phase 1 of the Warwick Township on-lot sewage management program. These households are required to have their on-lot sewage system pumped by December 31, 2015. They must file a visual inspection form that is to be filled out by their waste hauler. We also need a copy of the receipt from their hauler.

Warwick Township is requesting that anyone who is part of phase 1, return their completed forms to us as soon as possible. If you have lost or misplaced your form, you can obtain a copy by going to our website at [www.warwick-bucks.org](http://www.warwick-bucks.org) (permits and forms) or you can pick them up at the township administration building.

In 2011, Warwick Township adopted the on-lot sewage maintenance ordinance to ensure basic maintenance of on-lot septic systems in the township. Septic tanks must be pumped at intervals not to exceed three years. You only need to register for the program one time but you will be notified every three years in reference to pumping your tank. Pumping your tank regularly will greatly reduce the chance of accumulated solids escaping the tank and clogging other components, especially the drain field, which is the most critical component of most septic systems. In addition, pumping the tank regularly will prolong the life of any on-lot system.

## WORKING FROM HOME

By: Nancy Ehrmann-Cheatle, Code Enforcement Officer

Are you working out of your home? If so, here is what you need to know. Warwick Township would like to remind residents that a zoning permit is required for all Home Occupations.

### WHAT IS A "HOME OCCUPATION?"

A home occupation is an accessory use that is clearly subordinate to the existing residential use of the property. There is a \$100 registration fee for a home occupation, as well as a \$50 annual renewal fee. Failure to register a home occupation could result in a non-traffic citation and penalties up to and including \$1,000 per day plus court fees as determined by the District Justice.

### WHAT TYPES OF HOME OCCUPATIONS ARE THERE?

*Home occupations in Warwick Township come in the following types:*

- Professional Offices (salesperson, architect, engineer, doctor, lawyer, accountant, etc.)
- Personal Services (barber, beautician, photographer, etc.)
- Instructional Services (teaching maximum of four students at a time)
- Home Crafts (artist, sculptor, tailor, rug weaving, lapidary work, furniture making, etc.)
- Business Trades (electrician, plumber, landscaper, carpenter, mason, painter, roofer, etc.)
- Repair services (repair for small appliances, watches, bicycles, locks, etc. but NOT cars, trucks, snow mobiles, ATV's outboard motors, or jetskis)
- Family day care (supervising children not related to the caregiver)
- No-Impact Home Based Business (There are general standards that apply to all home occupations and then there are specific standards that apply to different types of home occupations.)

### WHAT IF I DON'T HAVE ANY CUSTOMERS OR CLIENTS COME TO VISIT ME?

If no one other than family members is involved in the business, there is no display or sale of retail goods, there are no signs, the activity doesn't generate more sewage than a typical residence and the activity doesn't occupy more than 25% of the habitable area of the home, the business will probably be considered a "No-impact Home-Based Business." A permit is still required. With a proper permit, No-Impact Home-Based Businesses are allowed in all zoning districts.

### WHERE CAN I HAVE A HOME OCCUPATION?

A home occupation is either permitted by right, permitted by special exception, or not permitted depending on the type of home occupation and the zoning district where the property is located. "Permitted by right" means that if the owner applies for a permit and meets all the regulations in the ordinance, they will be issued a permit. "Permitted by special exception" means the applicant has to apply to the Zoning Hearing Board for permission to operate that type of home occupation in that location. "Not permitted" means that a particular type of home occupation is not allowed in a particular district.

### WHAT ARE SOME OF THE GENERAL RULES AND REGULATIONS THAT APPLY TO HOME OCCUPATIONS?

The home occupation must be carried on wholly indoors. The appearance of the home cannot be altered to cause it to be different from the surrounding homes. Home occupations cannot create noise, vibration, glare, fumes, odors, dust, or electrical interference.

### MORE INFORMATION:

The permit application form for Home Occupations can be found on our website at [www.warwickbucks.org](http://www.warwickbucks.org) in the permits and forms section.

*If you have any questions you can call the Township Administrative offices at 215-343-6100.*

## TOWNSHIP SAVES BY REFINANCING DEBT

By Barbara Weinstein, Director of Finance and Benefits

The Township will save approximately \$450,000 over the next twelve years after refinancing a series of bonds from 2010. The Board of Supervisors voted unanimously to refinance \$4,940,000 in debt with current annual interest rates ranging from 2.25 percent to 4.125 percent. The new general obligation note has a fixed interest rate of 2.07 percent. The refinancing also shortened the term of the debt from twelve to ten years.

## A NOTE FROM THE TAX OFFICE

By Denise Betts, Warwick Tax Collector

You should have received your 2015 county township and your 2015 school district real estate tax bills. If not, it is important to contact Denise at the tax office 215-491-0611 or email [warwicktaxbetts@aol.com](mailto:warwicktaxbetts@aol.com) in December.

The unpaid tax bills will be turned over to Bucks County tax claim. Please update the tax office on any address changes. All new homeowners should look for a Homestead form in the mail during December for 2016. We collect only real estate taxes. For the earned income tax collector, please contact Keystone Collections at 1-888-328-0565 or [keystonecollects.com](http://keystonecollects.com).

## Follow Warwick Township on Facebook and Twitter

Follow the township on Facebook at "Warwick Township". Be sure to select the one with the township seal. The Parks and Recreation Department will post offerings and special events. Emergency messages and information may be found there as well.

#### NEW - SOCCER STARS 1

It's never too early to develop a child's love of soccer and athletics. Our Soccer Starters program is the perfect introduction to soccer basics, promoting physical fitness, creating a positive attitude, developing coordination, and sportsmanship. Instructor ratios are kept small to ensure each child gets the much needed individual attention. We know the importance of first getting kids interested and motivated before they are able to absorb the necessary lessons. Thematic games and fun exercises are designed to inspire and challenge young players, but also allow them to meet with successes that keep them interested in learning more. Learning the fundamentals, and developing a love for the game starts here. Kids that start with us have a real advantage as they mature. We believe it is our duty and privilege to get your kids started off right and develop a passion for the game that will last a lifetime.

## AN IMPORTANT MESSAGE FROM THE PUBLIC WORKS DIRECTOR

Warwick Township is making winter storm management preparations for dedicated roads to assure the highest level of service to our residents. The following is our general snow and ice removal policy for the Township. The policy may be adjusted to address unique situations or state of emergency designations.

To serve you better, we need your cooperation with all facets of winter storm management. We ask you to review our policy and the additional information provided here. If you have any further questions, please email them to [klaverty@warwick-township.org](mailto:klaverty@warwick-township.org).

The Township's primary objective is to make the roads under its jurisdiction as safe as reasonably possible under the circumstances for the traveling public. This means plowed and passable edge to edge. To minimize damage to equipment, plow blades are not set to scrape the road bare.

We once again will be applying a brine solution to critical road surfaces prior to the first snowflake, **ONLY** when conditions are optimal for this type of application. These roadways will be selected in a manner which best recognizes the need to ensure safety in critical areas such as higher traffic volume areas, slopes and sharp curves. By doing this we hope to inhibit snow adhesion to roads. Ideally, we will have time to reach all of the critical areas as well as a large portion of dedicated Township roads.

The Township does not mobilize its snow removal forces for its plowing operations until a minimum of 3' of snow is on the ground. Icing conditions are addressed using different criteria. Designated snow emergency routes will be the first areas salted and plowed within the Township, followed by collector roads, main development streets, and cul-de-sacs. For the initial plowing sequence, drivers are instructed to make one pass in each direction on the street and one pass in and out of cul-de-sacs (up the middle). The priority of each vehicle is to open each street in its assigned area. At the start of each storm, trucks are loaded with salt and drivers are sent to their assigned areas. Their instructions are to apply salt to all Snow Emergency Routes then collector and arterial roads, followed by main development roads then cul-de-sacs and Dead Ends Last. So if we come through and have not been on your street it is because Cul-de-sacs and Dead Ends are **LAST**. We will address you as soon as our primary roadways have been treated and are safe. Salt needs the movement of traffic to be most effective; so if it seems your street has not been salted, it may just be that there has not been enough traffic to promote melting action.

Snow is pushed where it is most convenient and maximizes our time. We do not purposely place snow on anyone's property. The snow is pushed to areas that maximize our time and effectiveness. We are working as hard and as quickly as possible to open up our roadways for all.

## MESSAGE FROM THE PUBLIC WORKS DIRECTOR ... CONTINUED

### HERE ARE WAYS FOR YOU TO ASSIST WITH THE SNOW REMOVAL EFFORTS:

#### Vehicle parking:

- Park off the roadway and in your driveway. On street parking inhibits our trucks from clearing the streets.
- If you live on a cul-de-sac, parking on the street makes snow removal almost impossible.
- If you live on a designated snow emergency route, you may not park on the street once a snow emergency has been declared.

#### General Removal of Snow:

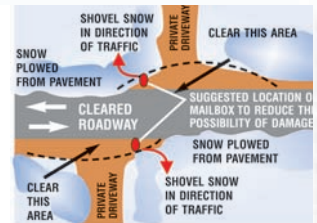

- Do not throw or blow the snow that you remove from your driveway or sidewalks back into the street. This slows the snow removal process and you could be subject to a fine.

#### Driveways – Some suggestions for shoveling driveways are:

- Wait until all plowing operations have ceased before attempting to clear your driveway.
- If you clear your driveway before plowing operations are completed, leave the last 6 feet unshoveled.

To review the ordinances on snow removal, visit [www.warwick-bucks.org](http://www.warwick-bucks.org) and click on Code. The township ordinances are listed for your information.

Above all, please be patient. Snow plows push snow, they don't eat it! Our primary goal is to clear the streets for safe and accessible passage by all; we will move all snow to the curb line so **YES** your driveway will be plowed in, please review the drawing above to minimize your frustration and aggravation. **AGAIN the roadway being cleared is our NUMBER 1 priority.** Our employees need time to do their job properly. Please keep in mind that our employees also require rest breaks to ensure everyone's safety. We do our very best to insure timely operations but we do have 60 lane miles of roadway to address with a small crew.

Be aware that your mailbox is in the Township right-of-way and may be subjected to tremendous weight of thrown or piled snow. The Township is not responsible for mailboxes damaged by thrown snow, so to minimize this type of damage, check to see that your mailbox, the post, and the box mounting are in good condition and do not extend into the street.

If there is an immediate or urgent problem, you can contact the Township and leave your contact information, address, and the nature of your problem. The Public Works Department will respond in a timely and efficient manner to rectify the situation. If there is an emergency problem for the police or fire company, dial **9-1-1**.

We appreciate your review of this information. The Township strives to provide a high level of service, while minimizing the use of tax dollars.

*Thank you in advance for your cooperation and patience, we strive for excellence in the service of our residents.*

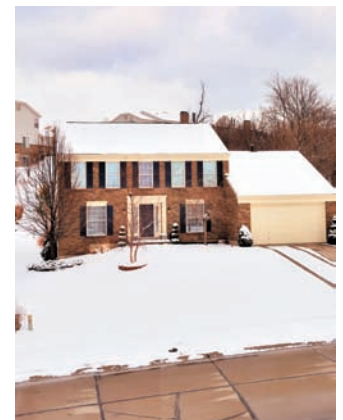

## Prepare Your Home for Winter

As winter approaches, our thoughts turn to other activities as we plan for the annual hibernation to the indoors. This is also a good time to plan a safe hibernation for your house as well. The constant change in the weather can have a significant effect on your house that, if left unchecked, may result in major repairs in the future.

Now is the time to inspect your house for anything that does not appear to be normal. Things to look for include loose siding, missing or torn shingles, broken or sticking doors, missing caulking around windows or any other item that will leave your home exposed to the elements. Now is the time to start addressing these items before the cold weather sets in and these items are forgotten.

You may also want to take a look at other items that are often overlooked until it is too late. One important item is your home heating system. Most people who are not on a maintenance program forget to have service performed until well into the heating season when the furnace decides to stop working. Unfortunately, this is the time that most heating contractors are busiest and you may have to wait for service. Avoid the headache and plan ahead.

Items such as your water heater may need your attention as well as other home appliances. Remember to check and make sure water pipes are properly insulated and not exposed to freezing temperatures. Be sure that leaves and debris do not obstruct water flow from gutters and downspouts. Water that freezes and is allowed to back up rooftops often provides you with unwelcome leaks. The lists are endless, but remember your home is a major investment - take good care of it.
