

ALTERNATIVE ENERGY SUPPLEMENT

Zoning Permit #: _____ Building Permit # _____

Project Details

Wind Energy Conversion System	<input type="checkbox"/> If checked, complete section A
Solar Energy System	<input type="checkbox"/> If checked, complete section B
Outdoor Furnaces	<input type="checkbox"/> If checked, complete section C
Other	<input type="checkbox"/> If checked, complete section D

Location of equipment on property: _____

A. Wind Energy Conversion Systems

Will this wind energy system be an accessory use to the property? Yes No

Is the property a minimum of 3 acres? Yes No Give size: _____ acres

What is the maximum height of the system? _____ ft. (75 ft. max. permitted)

Is the system within 300 ft. from any floodplain area? Yes No

Does the system meet the 300 ft. setback requirement from all streets and property lines? Yes No

Setbacks: From street(s) _____ ft. From front property line _____ ft.
 From side property line _____ ft. From side property line _____ ft.
 From rear property line _____ ft.

Is the system proposed on any dedicated or preserved open space? Yes No

Will the electric and utility lines to and from the system be installed underground? Yes No

Is the system enclosed by an 8ft. fence? Yes No (Fence permit required)

Does the plan include buffering compliant with the Zoning Ordinance? Yes No

Has this application received Conditional Use approval by the Board of Supervisors? Yes No

If yes, provide date of approval ____/____/____

B. Solar Energy System

How will the solar panels be mounted? Roof Ground Array Other

If Ground Array

Size of property: _____ acres

Height of highest point of the structure: _____ ft.

Setbacks: From house _____ ft. From rear property line _____ ft.

From side property line _____ ft. From side property line _____ ft.

If Roof Mounted

Which part of the roof are the solar panels proposed?

Front Side Rear (Front of roof is not permitted)

What is the total height of the solar panels on the roof (including the existing roof height)? _____ ft.

C. Outdoor Furnace

Is the property the minimum 2 acres? Yes No Size of property: _____ acres

Height of chimney: _____ ft.

Type of fuel to be used for the furnace: _____

Will furnace be screened from sight? Yes No

D. Other: _____

Size of property: _____ acres

Setbacks: From house _____ ft. From rear property line _____ ft.

From side property line _____ ft. From side property line _____ ft.
